

Choose to understand everywhere

Phonak was first to introduce zoom technology to enhance understanding in challenging hearing situations. The new Audéo S IX makes zooming even more effective by mimicking the way sound is naturally perceived and heard.

Exclusive Audéo S IX technology allows three levels of zooming:

UltraZoom Premium

In noisy situations with several people talking around you, UltraZoom automatically zooms to the voices coming from the front. Noise from the side and back is cut out.

StereoZoom

In an extremely noisy situation where you want to communicate with just one person, StereoZoom can zoom in even closer and reduce noise even further.

auto ZoomControl

When you cannot easily face the speaker, e.g. in a car, auto ZoomControl can zoom to either side and to the back for effortless understanding.

Life is on

We are sensitive to the needs of everyone who depends on our knowledge, ideas and care. And by creatively challenging the limits of technology, we develop innovations that help people hear, understand and experience more of life's rich soundscapes.

Interact freely. Communicate with confidence. Live without limit. Life is on.

Audéo S IX

Treat yourself to brilliant design and next generation technology

PHONAK

life is on

Choose from 3 award-winning designs

To suit your personal preferences, Audéo S IX offers tasteful combinations of design and color.

You will be surprised at how discreet your new hearing aids are. Audéo S IX is easy to use, has won four design awards and is built to last.

Audéo S MINI is the smallest Phonak ever, it hides behind your ear. It is so tiny and automatic you can just wear it and forget it.

Audéo S SMART wirelessly connects to TV, telephone and MP3 players and is now available with high-tech ceramic housing. It's for you if you want top performance with manual control and unlimited connectivity.

Audéo S YES wirelessly connects to TV, telephone and MP3 players. Its design has won multiple awards. If you enjoy expressing your individual taste, you will love its unique style.

Vibrant? Discreet? That's totally up to you. Different models come in different color combinations.

Choose to be connected

With Phonak wireless accessories, multimedia entertainment, communication and work is much more fun. TV, telephone, MP3 player, GPS and computers can be enjoyed effortlessly.

Plus, only a Audéo S IX (SMART and YES models) has DuoPhone, which lets you hear a voice on the phone in both ears – as soon as you hold the handset to your ear. Speech clarity is impressive and background noise is reduced.

Connecting the Phonak TVLink with your Audéo S IX (SMART and YES models) brings TV sound directly to your ears, so you and your family can adjust the volume separately and enjoy watching TV together.

Please ask your hearing-care professional to show you what the amazing Phonak wireless accessories can do.
