Phonak Baseo™ Q

Phonak Baseo Q-UP (Q15) (HE7)

Compact UltraPower BTE, battery size 675 (for fitting range, product details and available options, please see Product Information or visit www.phonakpro.com).

Using pure tone measurements with a digital hearing instrument can result in a wavy frequency response. This is an artifact resulting from the use of a narrowband input signal and does not affect the actual performance with naturally occurring broadband input signals.

Warning to hearing care professionals:
This hearing instrument has an output sound pressure level that can exceed 132 dB SPL. Special care should be taken when fitting this instrument as there is a risk of impairing the residual hearing of the user.

Unless otherwise specified, all data obtained are measured with the hook type HE7 and Phonak Target measurement settings.
