

Hear better in more environments

Phonak was first to introduce zoom technology to enhance understanding in challenging hearing situations. Naída S V makes understanding even more effective thanks to further improvements in the exclusive zoom technology.

Naída S V zoom technology:

UltraZoom Advanced

In noisy situations with several people talking around you, UltraZoom automatically zooms to the voices coming from the front. Noise from the side and back is reduced.

ZoomControl

When you cannot easily face the speaker, e.g. in a car, ZoomControl can be selected to zoom to either side and to the back for effortless understanding.

Life is on

We are sensitive to the needs of everyone who depends on our knowledge, ideas and care. And by creatively challenging the limits of technology, we develop innovations that help people hear, understand and experience more of life's rich soundscapes.

Interact freely. Communicate with confidence. Live without limit.
Life is on.

Naída S V

Believe in the power
to hear more

PHONAK

life is on

Treat yourself to power hearing delight

Naída S V is the new benchmark power solution.

Naída S V is a high-performing hearing aid, for people with significant hearing loss. If you want to add to your quality of life by choosing excellent audibility, performance, durability and design, read on to find out more.

More hearing

SoundRecover makes high pitched sounds, which are normally difficult to hear, more enjoyable and audible. Annoying whistling is eliminated thanks to the powerful WhistleBlock technology.

More freedom no matter where or what

More dependability

Naída S V combines incredible performance with great looks and water resistance for unbeatable dependability.

More connectivity

With Phonak wireless accessories, multimedia entertainment, communication and work are much more fun. TV, telephone, MP3 player, GPS and computers can be enjoyed effortlessly.

Connecting the Phonak TVLink with your Naída S V brings TV sound directly to your ears, so you and your family can adjust the volume separately and enjoy watching TV together.
